**DETAILED ACTION**

***Response to Amendment***

1. The present Office action is made in response to the amendment filed on 12/9/2008, the pre-appeal brief request for review filed on 1/9/2009, and the Notice of panel decision from pre-appeal brief review of 3/6/2009.

***Specification***

2. A substitute specification without the claims filed by applicant on 6/18/2008 has been approved and entered. It is noted that applicant has filed a clean copy of the substitute specification on 6/18/08, a marled-up copy showing the changes to the specification on 6/18/08 and a statement that the substitute specification does not contain any new matter on 12/9/08.
3. The lengthy specification which was amended by the amendment of 6/18/08 has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
4. The objections to the abstract and the specification as set forth in the Office action of 9/9/08 have been overcome by the enter of the substitute specification filed on 6/18/08.

***Claim Objections***

5. The objection to claims 3 and 8 have been overcome by the amendments to the claims as provided in the amendment of 12/9/08.

***Allowable Subject Matter***

The device as claimed in each of claims 1 and 2 is allowable by the limitations related to the chemical features of the comb polymer of the smooth layer formed on the prism sheet (or the light diffusing film). In particular, the applied art does not disclose that the comb polymer of the smooth layer has a copolymer stem moiety and a branch moiety formed of macromonomers as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
